Colin Pillinger – Leader of the Beagle Mission to Mars

Professor Bill McGuire – Earthquakes & Floods

Claudia Yuki Omachi – Oceanography

'I was inspired by **JACQUES COUSTEAU** and his under-water pictures that revealed **LIFE BENEATH the SEA.**'

'I was **INSPIRED** to take up engineering geology and geomorphology through a fascination with **LANDSCAPE.**'

Dr Hilary Downes – Petrology

'The **EARTH** is a **dynamic**, beautiful and ancient planet. The more we understand how the Earth works the greater the charms of **LIVING in HARMONY** with **NATURE.**'

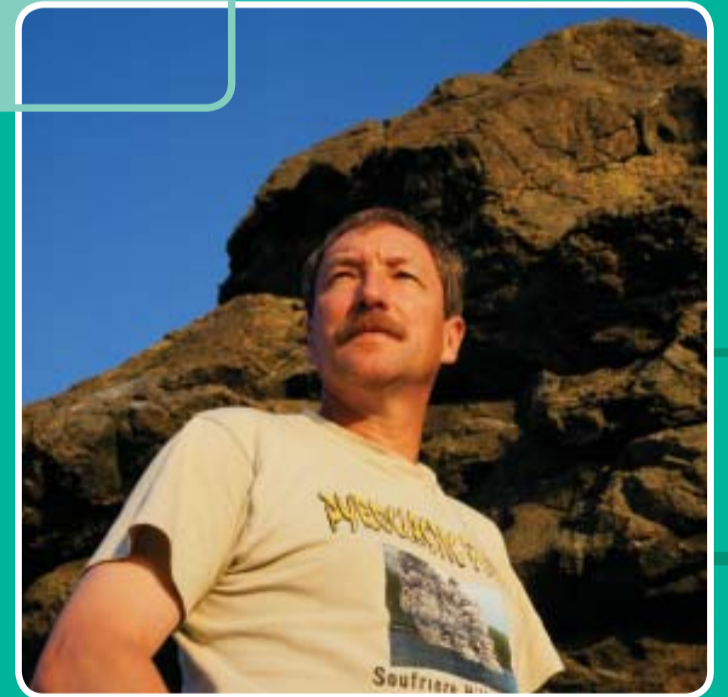

Dr Jane Plant – Geochemical Hazards

Dr Ruth Allington – Hydro-geology

'When I was a child I wanted to be a ballet dancer like lots of other little girls. **As I grew older** I realised **SCIENTISTS** could be just as **creative** as **artists**. And I was much better at **SCIENCE** than dancing!'

'**GEOLOGY** is an inspirational subject, and the unrevealed **mysteries** of its component parts are available to all who **wish to seek them out.**'

Professor Steve Sparks – Volcanology

Dr Chandrika Nath – Glaciology

Professor Peter Doyle – Geoscience & Conservation
