

# fast forward <sup>to</sup> the future of **engineering**

Stephanie Ankras – Shin Guard Design [Materials Engineering]

Professor Martin Sweeting – Satellite Engineering

Cathy Day – Vehicle and Engine Test

'FASCINATION, ingenuity, creativity, *curiosity* and LATERAL THINKING all make a *true engineer.*'

'When you have a *burning desire TO TAKE APART ANYTHING* that moves you are *BORN* to be an *ENGINEER.*'

Monika Sud – Chemical Engineering

Damini Kumar – Design Engineer and Inventor

Dr John Roberts – Roller-Coaster Design

'My mother used to say that the *FIRST WORD* I ever learned was 'WHY'. *CURIOSITY* has driven my *CAREER* in *SCIENCE*. I love to ask 'what would happen if...?' and then 'WHY?'

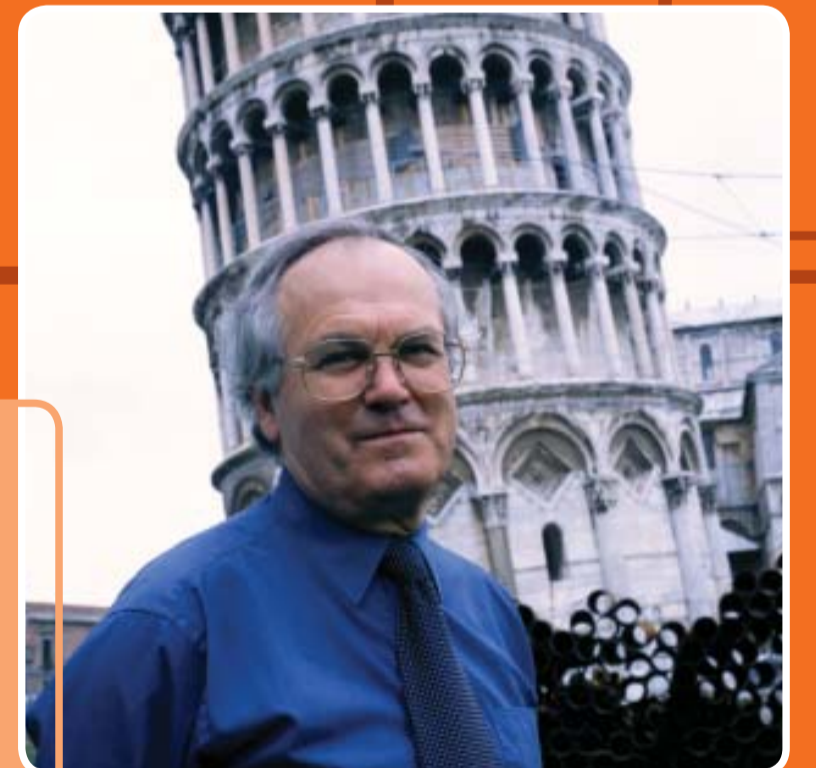

'Civil engineering involves the *CHALLENGE* of working with the *unpredictability* and *FASCINATION* of the natural environment.'

Professor Julia Higgins – Properties of Plastics and Rubber

James Dyson – Design Engineering

Professor John Burland – Supporting the Leaning Tower of Pisa [Geotechnics]
